PREVIOUS EDITION UNUSABLE
30-105
STANDARD FORM 30 (REV. 10-83)
FAR(48CFR)53.243

1. This modification is issued to make the following changes to the basic contract:

    a. Part One – Continuation of SF 1449 is revised as follows:

        DELETE: Item 0021 (and 0121 if option is exercised): **Defense Messaging System Data Seat Upgrade:** This is an upgrade to the basic data seats to support Defense Messaging System requirements. **Optional** for Items 0001 through 0004 (and 0101 through 0104, if option is exercised).

        INSERT: Item 0021 (and 0121 if option is exercised): **Defense Message System (DMS) Data Seat Upgrade:** This is an upgrade to the basic data seats to support DMS requirements. The purchase of this optional CLIN provides for the transport of DMS organizational messaging from an NMCI DMS Groupware Server (GWS) to seats upgraded by this CLIN. A DMS releaser or DMDS terminal will not be able to send (sign & encrypt) or receive (decrypt) DMS organizational message traffic without purchasing this CLIN as an upgrade to a NMCI basic seat. An NMCI seat upgraded in this manner can support both individual messaging and DMS organizational messaging. DMS services include: provisioning the data seat with the DMS User Agent (UA) package consisting of the DMS Outlook client and the DMS X.500 Directory Information Tree (DIT) Browser, a PCMCIA card-reader and drivers (to accommodate use of the GFE FORTEZZA cards), and the creation of the NMCI DMS Organizational Account. Also, the following GFE software will be provisioned to the seat: (1) a Service-specified message preparation aid -- (a) for Navy: TurboPrep, (b) for USMC: the Common Operating Environment (COE) Message Processor (CMP), (2) the Distributed Plain Language Address Verification System (DPVS) utility, and (3) as needed, the Defense Message Dissemination System (DMDS) utility.

The CLIN-21 seat upgrade includes the creation and maintenance of a NMCI DMS Organizational Account hosted on an NMCI-provisioned DMS GWS at a NMCI Aggregation Point. DMS Groupware Servers to which CLIN-21 seats are to connect that are not located at a NMCI Aggregation Point require issuance of a CLIN 0027 task order for NMCI connectivity and/or a CLIN 0029 task order to cover the costs of the hosting computer (which must meet NMCI ISF server specifications) and its operational maintenance. DoN is responsible for operation of the DMS Area and Local Control Centers (ACCs/LCCs).

Purchasing this CLIN and invoking the DMDS utility will permit this seat to receive DMS Organizational message traffic from the NMCI DMS Groupware Server, invoke profiling of the received message, and subsequently perform onward distribution of the profiled messages to individual email accounts or to public folders. Additional support or ongoing maintenance of the DMDS function requires issuance of a CLIN 0029 task order.

Optional for Items 0001 through 0004 (and 0101 through 0104, if option is exercised).

Attachment 1 References: Basic services as provided for applicable seat
Attachment 2 References: Same as applicable seat service levels, 20A

A CONFORMED COPY OF THE REVISED CONTRACT IS MADE A PART OF THIS MODIFICATION AS A RESULT OF THE CHANGES OUTLINED HEREIN.

All other terms and conditions of Contract N00024-00-D-6000 remain unchanged, and in full force and effect.
